SOFTWARE ENGINEER

I recently graduated in software engineering with a strong background in coding concepts, algorithms, and approaches to software development. With a strong ability to solve problems and work well in teams, I pay close attention to details. I am eager to apply skills in real-world projects and further develop under expert mentorship.

TECHNICAL SKILLS

Languages : Python, C/C++, Java, Shell, Dart
Frameworks : Flutter, Flask, Django, Scikit-learn
Databases : MySQL, SQL, Firestore
Tools/Platform : Vim, Git, Linux, Docker
Miscellaneous : Networking, Supervised/Unsupervised Learning, EDA

EXPERIENCE

Software Engineer Intern
Cognus Technology

June 2023 – August 2023
Udaipur, Rajasthan

- Contributed to live project **Gradding** using **Flutter**, **Dart**, and Figma.
- Designed intuitive onboarding with **questionnaires** and document uploads, **handling return** cases seamlessly.
- Conducted in-depth market research on competing applications, analyzing **features** and identifying **gaps** to streamline onboarding app development by **25%**.

EDUCATION

Sir Padampat Singhania University
Bachelor of Technology in Computer Science(Artificial Intelligence - Machine Learning)

Udaipur, Rajasthan
October 2020 – May 2024

PROJECTS

Blooms Taxonomy Level Classification

Python, MLFlow, MLOps

- Developed a MLOps project using **Flask**, **SMOTE**, **TF-IDF Vectorizer**, **Pipeline**
- Effortless classifies question in blooms taxonomy level with **90%** accuracy, thanks to **NLP-Aug**
- Created **Docker** image and pushed to Docker Hub
- Added prediction API for utilization purpose for HEI's following **OBE**

OBE Module for University - Major Project

PHP, REST API, MySQL, Data Analysis

- Build OBE module for implementing the OBE curriculum with easiness
- Implement a robust relational database structure with MySQL's **3-level normalization** ensures efficient data storage and retrieval
- Implementing business logic for assessing student **learning outcomes** involves analyzing their performance, aligning it with program goals, and providing feedback for improvement.

More Projects

ACHIEVEMENTS

Bronze Medalist - WCAIAA Coding Hackathon, 2023
Silver Medalist - All India IEEE Ideathon, 2021
Gold Medalist - All India IEEE SPSU Ideathon, 2020
Automate the Boring Stuff with Python Programming by Al Sweigart - on Udemy
Docker Essentials: A Developer Introduction - By IBM
Data Science Training - on Internshala

ACTIVITIES

Working on PTB-XL ECG data for Heart Disease Classification
Writing research paper on my Bloom Taxonomy Level Classification Project
Exploring Federated Learning as part of my International Research Internship
Created Gemini-ATS: A smart Application Tracker System for analyzing resumes with job description
